## S. F. Chinatown Is Closed As Gun Men Open Faction Fued

## 3 DEAD AND 5 WOUNDED IN TONG WAR

Oakland Officers Take Steps to Prevent Outbreak Here Following Hostilities in Other Centers of State

Heavy Guard Is Placed About Local Oriental Quarter; Drastic Patrol Orders Go Out to Prevent Bloodshed

San Francisco's Oriental quarter is isolated by a police blockade. Oakland's Chinese district is under close surveillance and officials throughout California have adopted precautionary measures as the result of a long-smoldering feud between two powerful tongs which has flared into activity and which so far has resulted in three Chinese being shot and killed and five wounded.

The feud broke out almost simultaneously last night in San Francisco, Los Angeles and Stockton.

The police of practically every community in the state having Chinese residents express the belief the tong war is spreading and that additional sanguinary outbreaks can be expected at any time from any section.

### SPECIAL POLICE PATROL ON GUARD IN CITIES.

Special patrols of police and detectives are on guard in all of the larger cities in the state.

Chief of Police Daniel O'Brien of San Francisco, today ordered Chinatown in that city closed to all "white tongs," placed police guards at more than twelve buildings known to be or suspected of being headquarters for longtongs and increased the number men on the Chinatown police detail.

"There will be none of this tong war business here as far as I am concerned," declared Chief Thompson. "I have assigned a special detail to that district and, in all probability it will be placed in charge of Sergeant Brock."

### SHOUT SHOUT PROMISED FOR TONG FIGHTERS.

"I have issued instructions that the first sign of any long activity the rebel wagon is to be summoned, backed up in the curb and every tongman in suspected longtong buildings to be taken to the city police and booked on charges of criminal conspiracy."

I have reasons for believing that the present war ultimately may spread to Oakland. The local situation is tense and most known tong men have gone into seclusion."

For the first time in the history of the Chinese here, chief police officers of the state have told their relations with the police, "We must break their word and now they must pay," was Chief O'Brien's comment in San Francisco after issuing the blockade order.

Reports from all the larger municipalities in the state are that the police are ready for any emergency and that the Chinese inhabitants either are in seclusion or have fled in anticipation of a continuation of the battle.

Hostilities broke out late last night almost simultaneously in the three cities as a tragic and unexpected termination of the Chinese New Year's festival.

### LIST OF VICTIMS OF THREE-CITY OUTBREAK

The San Francisco victims of the war are:

DEAD: GOON, 667 Jackson street, was shot three times through the body and dropped dead in the street.

INJURED: FONG LONG, 1844 Grant avenue; gunshot wound of the left hand.

JIM CHAT, 627 Jackson street; shot through the groin and may die of severed artery.

HOO SONG, 1122 Grant avenue; shot through the right knee.

The Los Angeles victims are, dead:

DEAD: GOONY FONG.

Injured:

LOW HAIN.

The Stockton victim wounded:

CHOW FONG.

According to the police the present outbreak has been precipitated by the Blue Long and Hon Sing tongs, after a feud apparently had been adjusted amicably by their representatives, Chinese officials and the police.

In San Francisco Go Fong was shot and killed by four men who fired him in a rooming house at 1844 Grant avenue.

TWENTY SHOTS FIRED IN S. F. KILLING.

Before Fong dropped with four bullet wounds in his body he fired the entire magazine of his pistol at a time.

The Southern Pacific plea, according to Attorney Robert Fitzgerald, who was one of a number of prominent men approached on the subject of a new building, merely is a subterfuge to obtain additional delay.

"I am forced to question the good faith of the procedure," Fitzgerald said.

## CONTRACTOR IS ACCUSED BY WOMAN IN BRADY TRIAL'

—JEAN STANLEY

Perjury Charges in Gangster Case Are Vigorously Denied by Girl Witness On Stand Before Judge Ward

Complainant Says Man Followed Her in Wagon and Was Frightened by Workers Who Heard Her Cries

Walking on the highway along Lake Chabot into the hills back of San Leandro, where she was going to search for her missing daughter whom she believed might have committed suicide, Mrs. Eva Welch, 733 Juanita Avenue, San Leandro, was brutally attacked by a man, and to-day Manuel Nunes, a contractor, residing at 1524 Orchard avenue, San Leandro, was arrested on the charge and is being held on \$2,000 bond. The woman's screams frightened her assailant and when neighbors arrived, the man had fled.

Thomas Brady was out for sentence, Attorney William E. Herron, his counsel, was on the stand in his behalf. Then the two girls were brought into court. First Miss Montgomery was called, then Miss Stanley, testifying on the witness stand to day.

Possitively and forcibly the girls denied that they had retracted their testimony that they had lied on the charges of alleged perjury, falsification of evidence and insinuations of an attempt to railroad certain of the gangsters of the Howard street band, who made through Jean Nunes and Jessie Montgomery, testifying on the witness stand to day.

Thomas Brady was out for sentence, Attorney William E. Herron, his counsel, was on the stand in his behalf. Then the two girls were brought into court. First Miss Montgomery was called, then Miss Stanley, testifying on the witness stand to day.

Thomas Brady was out for sentence, Attorney William E. Herron, his counsel, was on the stand in his behalf. Then the two girls were brought into court. First Miss Montgomery was called, then Miss Stanley, testifying on the witness stand to day.

## OFFICERS SEEK 1584 CASES OF MISSING WHISKY

Cargo of Liquor from Kentucky Disappears From Warehouse

SAN FRANCISCO, Feb. 16.—A bill to require retailers, wholesalers and jobbers to mark the cost of articles offered for sale plainly on such article has been introduced by A. Endymion T. V. Mitchell, San Fran. to

The bill provides that the true retail or cost of the article to him shall be marked on the article on an attached tag and that failure to so mark good may be punished by fine up to \$500 in imprisonment to one year or both.

### Critics Strike When They Can't "Roast"

SACRAMENTO, Feb. 16.—Every state senator here is in favor of a bill to prohibit the sale of distilled spirits in California, according to the latest report of the Senate Committee on Prohibition. The bill was introduced by Senator W. C. Schuman, who has been a leader in the prohibition movement in the state. The bill would prohibit the sale of distilled spirits in California, and it would be illegal to import them into the state.

Senator Schuman said:

"What I am expected is saying what we all know, that is, that when the bill is introduced, it will be voted down."

## STATE FORCE OF POLICE PROVIDED IN BISHOP BILL

SAN DIEGO, Feb. 16.—A San Diego man would create a force after pattern of Texas Rangers

State Education Department

Behind Measure To Enlarge Facilities

SACRAMENTO, Calif., Feb. 16.—The State Police would have 150 men in its ranks by the time the Legislature adjourns next week. The bill provides a department of police headed by a chief to be appointed by the governor. There would be a state force and two companies of twenty-five men each, and a captain, lieutenant, and three ensigns in each. These would be appointed by the Senate.

The bill also creates a state education department.

SENATE RANGER FORCE

The members of the force would be officers in the state and would be required to serve in the law and to reform such as the governor shall direct.

The State Police would be given authority to enter the state in case of emergency.

The bill will be eventually considered in the state senate. The committee to be paid the officer and men is left blank in the bill to be filled in when the act is up to 100.

The right of eminent domain is the right to condemn property, which would be exercised by any individual or corporation in the right of way for irrigation systems in a bill introduced by Senator J. M. Dennett, Modesto, now awaiting consideration.

ARDI LAND RECLAMING

Senator Dennett's bill recites that there is much trid land which would become fruitful if irrigated, and that the only way water can be brought to it is over other lands which themselves must be bought for reclamation.

It would declare irrigation systems to be of public benefit, and would then extend the right to exercise the power of eminent domain to anybody who wanted to construct a ditch system.

Under present laws individuals cannot exercise the right of eminent domain.

**Governor Wants New Civil Service Plan**

SACRAMENTO, Calif., Feb. 16.—Governor William D. Stephens' plan for reorganization of the state government includes a new arrangement of the civil service which would be covered by a senate bill introduced by Senators W. J. Carr and M. B. Harris.

In stead of three commissioners at \$3,000 each as at present, the Civil Service Commission would have three members but one would be an executive commissioner at \$5,000 a year and the other two would be associate commissioners with pay of \$10,000 when employed and \$10,000 each annually. All would be appointed. They could be removed by concurrent resolution of the legislature.

Existing functions of the Civil Service Commission would be transferred to the new board.

**Regulation of Auto Stages Proposed**

SACRAMENTO, Calif., Feb. 16.—Three assembly bills and one senate bill for the regulation of automobile stages, lines and other auto traffic were presented to the legislature before adjourned and await consideration later in the session.

All these bills provide for regulation of stage and truck lines by the Railroad Commission and enlarge the powers of that body over such transportation. One bill includes a complete revision of the vehicle law as at present constituted.

**Bounty On Wolves Proposed in Bill**

SACRAMENTO, Calif., Feb. 16.—Wolves still roam the hills of California, if a bill putting a bounty on their extermination is any evidence.

The bill was introduced by Assemblyman George C. Cleveland, Whittier.

Gray wolves, black wolves, timber wolves and wolf pups will be worth \$10 a head to any hunter who traps them.

Provision is made for guarding against fraud in payment of bounties and for the return of traps to the trapers so that additional traps may be had from their side.

**Sacramento Doctor Faces Drug Charges**

SACRAMENTO, Calif., Feb. 16.—A warrant was issued for the arrest of Dr. J. L. Arbogast, prominent Sacramento physician here following a complaint by officers of the State Board of Pharmacy that he had violated the State poison act by prescribing morphine to drug addicts.

Dr. Arbogast is alleged to have in his possession prescriptions for morphine and to have in his possession a number of prescriptions for the drug himself and filled them out of his office.

The physician is said to have confessed, saying that he issued the prescriptions out of pity for the victims of the drug.

The doctor was propped up on the operating table with pillows. He dissected the tissues and closed the blood vessels on the knife penetrated the abdominal wall, and when the appendix was located he pulled it up and cut it off.

Doctor Kan is 60 years old.

## DON'T PAY A BIG PRICE FOR FOOD

The most expensive food is generally the poorest in real nutritive value. Shredded Wheat Biscuit is without doubt the cheapest food in the world today. It contains all the rich muscle-making elements in the whole wheat grain. The price was not pushed up on account of the war so we don't have to come down. Shredded Wheat contains more real nutritive value than meat or eggs, and costs much less. Two biscuits with hot milk make a warm, nourishing meal and cost but a few cents. Delicious with fruits and fruit juices.

Pacific Coast Shredded Wheat Co., Oakland, Cal.

# 'S KNIFE MURDERER EGALLOWS

## Bright Lights Not to Tempt Nugget Finders

"He's the man from Eldorado, and he's just arrived in town."

The whir of the faro wheel or the juro of the dance hall worshipped by the miners in the days of '49 will have little effect for Joe Miller, and his partner Johnny Stein, who arrived in San Francisco with a ticket which they had to the United States mint for \$500. They found the miners the other day on their claim up Milton creek, and promptly moved on into civilization.

When the officials of the mint hand them the \$5000 for the nineteen pound chunk of gold they will promptly put it in a bank and pull stakes and start back for home.

"No bright lights for us," said Joe and Johnny, "not at that hotel where rooms are rented for 25 cents a day down." "We're too wise and it's too high. When we get the money it goes right in a Frisco bank and then we pack back to where we found it to see if we can't get some more."

"Rich," said Stein laughing, when asked how it felt to be in such plutocratic condition. "It's a good bank, but last week we worked hard. In nine months we made \$10 between us."

"It's all in the name," said Miller, "but the fun isn't what you get but the fever you have looking for it."

## COMMISSION SAYS ROAD FUND SAFE

Answering charges of the California State Automobile Association that the state is in danger of losing \$10,000,000 of government apportioned road funds the State Highway Commission today produced a counter statement denying such danger.

The government fund for the state is \$8,384,000 says the commission, of which \$3,525,000 is covered by highway funds.

## MANY PLANS OF REAPPORTIONING COUNTY HEARD OF

Closer Unity and Breaking Up of Unnatural Districts Will Be Urged

By AD B SCHUSTER

Because Alameda county is unable either to gain or lose by the provisions of the various reapportionment plans before the state legislature, a feeling is more or less general and apparent that the question is of little or no importance.

At the same time that the tax assessors and other large questions are occupying the attention of the public there is a small number of those who see in the reapportionment opportunity to improve, sees in district boundaries and others who see in them a chance for political perversions.

MAINTAIN PLANS

There are a number of ways being taken to some that will cause little opposition in this matter, but most are aimed at one thing—secure closer unity in Alameda county representation and to break up unnatural districts that logical ones may be formed. It is pointed out for instance that the new assemblymen have districts entirely within Oakland, while all of the county's senators take in parts of more than one city in their districts, that Oakland eastern territory is front line entirely within an Alameda unit, until June 30, 1922, to cover the remaining \$4,759,000 and already has more than three times enough projects to use it all, it is declared.

Failure to split bonds is the only danger seen by the body, a danger overcome by amendment 9 recently passed which changed interest charge.

## Funeral Speakers Attack Bolsheviks

JONTHON Feb. 16.—In his account of the funeral at Moscow of Prince Peter Kropotkin, Russian author and revolutionary leader, the Herald's Moscow correspondent says that some of the speakers used the occasion to criticize the Russian Bolshevik government. Particularly bitter to the Bolsheviks were the anarchist and the social revolutionaries who spoke at the funeral. Colonel V. A. Gribbin, who had been a speaker at the funeral, said that the speakers had been "very bad."

Another plan calls for a seat for the First Baptist church, left the church to conduct a two weeks series of evangelistic services in the First Baptist church at Alameda. During his absence the Young People's Society of Christian Endeavor from Berkeley's given districts entirely within the city, which would lose no representation under the plan, would be divided into districts cut off outside of Oakland.

## IT COSTS TOO MUCH TO BE SICK

Keep Your Blood in Good Condition and You Throw Off Disease

PAY ATTENTION TO YOUR HEALTH

No Need to Take Chances With It Pepto Mangan Makes Rich, Red Blood

When you first feel a tired ill, feel no need to take pills, your blood is losing its quality. Work it, invigorate it, give it power to fight disease. It takes red blood to keep you well.

If you keep your blood in good condition it will fight off disease. You will not be sick in easy ways, long and expensive sicknesses. When the body is taken abeam there is no need doing that. You can take Pepto Mangan and build up rich red blood. With red blood you are able to win in the fight against prevailing diseases. Try Pepto Mangan. It comes in tablets, capsules, tea. Take either form. The tablets, the capsules, individual tablets or liquid. But take and you'll know. Pepto Mangan is the best. And be sure that the same comes from Pepto Mangan in the package. —Advertisement

## GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble—Caused by Fermenting Food and Acid Indigestion

Gas and will in the stomach accompanied by that full bloated feeling after eating at almost certain evidence of the presence of excessive fermentation in the stomach creating a bad self-indication.

All stomachs are dangerous because no one irritates the delicate nature of the stomach so often leading to gastritis, complicated by serious stomach ulcers. Tired fermenting gas occurs causing the digestive gases which upset the stomach and impairs the normal functions of the vital internal organs often affecting the heart and lungs. It is better to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. It is better to use a drugless gas like Magnesia in a quart of water and take a teaspoonful in a glass of water eight hours after eating. This will cleanse the intestines and bleed right out of the body between the stomach neutrizing the excess acid and prevent it from forming other serious complications. Distilled Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach incapable of taking up tissue and making it too strong for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advertisement

## Winter winds and the complexion

Lovers of the winter outdoors will find in Resinol Soap an excellent aid for combating its bad effects on the complexion. The use of harsh caustic soaps often promote chapping and redness but the purity and soothing qualities of Resinol Soap tend to prevent such conditions. If however the skin has become chapped a little Resinol Ointment stops the burning and stinging and keeps the skin soft and smooth. Be prepared to enjoy winter. Protect your skin by using Resinol. At all drugstores

## COLDS

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed up! Quit blowing and sniffling! A dose of Pape's Cold Compound taken every two hours until three doses are taken will always break any cold right up!

The very first dose opens clogged nostrils and the air passages of the head stops nose running relieves the headache dullness feverishness.

Pape's Cold Compound costs only a few cents at drug stores. It acts without assistance fastest nice contains no quinine—insist upon Pape's!—Advertisement

## Women Continually Overdo

This applies to all women regardless of caste or color. The ambitious, energetic, determined, the hard-working housewife, the shop girl, girls in offices and stores, and the society woman all climb too high over their strength and we follow. Arthritis, constipation, rheumatism, backache, headaches and the inevitable weakness and ailments peculiar to their sex soon develop which unless checked in time lead to conditions and which often lead to operations. An efficient restorative for such ailments is Dr. E. Pink's Vegetable Compound, which has been recommended from coast to coast as a standard remedy for women's ills.—Advertisement

## For Ten Years I

Battered with Stomach Troubles Indigestion, Catarrh, General Debility and finally became so prostrated to find no one being hopeless, he called a trial treatment of Dr. Burkhardt's Vegetable Compound and from the first day I began to use it I felt relieved.—Jeanette Colby.—Advertisement

Write today for a statement. Pay when cured. Address: Dr. Burkhardt, 101 Main St., Clinton, N. J. Spring 100 days, treatment, 25c. 70 days 50c.—Advertisement

According to Mrs. Jennings there are 1,000,000 women in homes doing work valued at \$10,000,000,000 who are listed by the United States census as having no occupation.

It is estimated that 45 per cent of the entire population live in rural areas and that 3,000,000 or 10 per cent cannot read or write she declares.

With the appointment of Mrs. Edith G. Herring to California the number of county directors will be 11. These clubwomen will serve without compensation. Their work will be to help the success of the demonstration movement. The par-

ticular effort will be in cooperation with the state demonstration extension work director and his county agents to secure the best results and create local demand for the same. They will work for appropriations to meet the Smith Lever funds in the counties the directors will endeavor to obtain appropriations to start local demonstration funds. Where this proves impossible Bonds of Trade, Chamber of Commerce and Rotary clubs will be asked to underwrite this work.

Approximately 1000 demonstration agents are working in fifteen southern states. They need better salaries according to the club leaders. In the

# IL SERVICE EXAMINATIONS UNDER ATTACK

ent Methods Said To Be  
Overburdened With  
Technicities.

## Elusive Chemistry of Love Told by Machine

SAN FRANCISCO, Feb. 16.—"Electronic vibrations" have been admitted to the parsonage and the church by Superior Judge Thomas Graham. Judge Graham ordered Paul Vittori to pay Mrs. Vittori \$25 a month for the support of their baby and thereby gave less recognition to the newly announced methods of Dr. Albert Abrams of this city for determining the parentage of children.

Comments for an investigation to determine whether the Twenty-eighth and Linden streets for the new vibration, which is for the elimination of "chemical and theoretical" phases of civil service examination for men formed the principal resumption last night at the regularly meeting of the East Side meeting was held in Woodman's, the hardware district. Joseph Higgins, president of the Oakland Chamber of Commerce, was the principal speaker. He outlined the doings of organization of the member of Commercio and offered operation of the larger body in facts of the East Side board of

solutions were passed by the congratulating the Oakland Board of Commerce and the Culver delegation in congress for efforts in securing the Pacific naval base for Alameda, and in congratulating the district

the sheriff's office and the police department for their

the Vittori baby he had found them

the same and reported to the court that Vittori is the father.

In the case of the Vittori baby the father denied parentage of the child.

A drop of blood from the babe and from the father were taken by Dr. Abrams at the request of the court. They were "condensed in

their electronic vibrations" and then adjoined in the word instrument called "telephore." The instrument, according to the report of Dr. Abrams to the court, showed the electronic "vibrations" which are very mystifying things to the layman were of the same rate and synchronized. Thus, according to Abrams' proved Vittori was the father of the child.

The question of identity, said Dr. Abrams today, is but the grouping of the "electronic vibrations." At all times through his "electronic vibrations" gives an olfactory essence while coal oil mixes with its essence.

The same, he explained, applied to blood. The composition is like, but characteristics of the person are indicated by the vibrations of the blood, just as the vibrations of the oil or oil of roses and coal oil is due to these vibrations.

**ELUSIVE CHEMISTRY OF LOVE IS REVEALED**

Other questions may be answered in similar ways. Race, age and differentiation of sex are all told.

As an instance, he cited the case of the child of a loveless marriage. The child will have the vibratory note of its father, but where does the true part, the vibratory note of the child is determined from both parents.

The "telephore" which performs these amazing feats was perfected under Dr. Abrams' instructions by Samuel O. Hartman who during the war developed and perfected the "telephore" which detected indications of disease.

**CHAW WAS OVERPAID**

The controversy has been between the two factions ever since the threatened strike of Bay Area bands. At that time, the official state, it was discovered, inadvertently, that the crew was working fewer hours than it thought it was and was being paid more than it should have been.

It was in the same court that Fitzgerald was arraigned after his first trial, and the last trial was

of the gang leaders, when McNamee

was instructed to discharge the crew.

## RIVAL PROPHETS WAGE HOLY WAR IN ZION CITY

VOLVA DUBS THE OPPONITION  
CHURCH 'TELESCOPICAL'  
GOTHOUSE.

CARL VICTOR  
United Press Staff Correspondent

ZION CITY, Feb. 16.—The re-  
action of Zion City Zionists over  
the new church building is  
now at a standstill.

A hotly contested battle is  
being waged between Rev. Wilbur Glenn Williams and  
Thomas J. Nelson who have  
each secured the services of  
a popular architect.

Williams, who has been  
in the Zion Ministry for  
nearly 20 years, is in the  
service of a religious institution  
and the Evangelical Tabernacle  
at Los Angeles, Calif., while  
Nelson is a member of the  
Zion City Tabernacle.

Both are seeking to make  
the Zion City Tabernacle

'Dignified' and 'Elegant'  
and the new church building  
is to be built on the site of  
the old one.

"Who can blame me for being  
dignified?" asked Volva. "Here we  
are getting along nicely under my  
administration as head of the Chris-  
tian Church Apostolic Church at  
Zion and overseer of Zion City. And  
we have another overseer to lead  
away my flock."

VOLVA LAMES OF  
JESUS CHRIST GOATS

An electrical goatherd is  
rightfully the object of the  
Volva's ire and he will be wagged  
right and left until every traitor goes  
to his own place.

What is your opinion of person  
who starts churches in your city?

Volva was asked.

That is it, he replied pointing  
to a huge sign. The sign captioned  
a mere plain notice read as follows:

This city is populated by Zion  
people and for Zion people only.

No gentleman nor mention a  
Christian would break into a church  
or settlement or attempt to do so.

It is to be established a  
church to be established.

These who do nothing more  
than religious busyness and  
wander about with less honor than  
a gang of brawlers, robbers and  
thugs.

Get out of this town mobility if you  
have no place of residence and go  
outside the walls of our own

IN THE BLUES ARE WE IN  
PICTURESQUE LAND AGAIN

Persons coming in here to hold  
meetings at the invitation of Zionists  
or persons election speakers and  
baptists and others need not ex-  
pect any courtesy from Zion.

Nelson had his first battle  
with Volva, who was at that  
time a member of the World Wide  
Missionary Association, in Alton,  
Ill., in traveling there against the  
United States' conference being con-  
ducted in the five states in the North.

The suit grew out of the above  
mentioned billboard which Volva  
erected above Nelson's church. The  
court held that he did not neces-  
sarily mean Nelson and his followers  
but the court said let him do what he  
wants to do.

If they want to know who he is  
around here let them wait some  
time, etc.

**County Loses in  
Condemnation Suit**

judgment for the defendant was  
given by Superior Judge George J.  
Samuels, who in his summing up  
announced himself as a candidate  
for city commissioner, defeating  
Incumbent Joseph Lloyd. Immediately  
announced the appointment of  
Walter Ford, business agent, of the  
Plumber's Union.

The count expended \$200 in ex-  
perimenting around squirrel on  
the principles of its action. Iron  
arrows had to be used to catch them  
and had failed to do so. Judge  
Samuel held his notice was faulty  
as it had been delivered to John  
Gandy, an employee on the ranch, and  
a second one to Gandy's wife to  
lead to him personally.

**City Plumber Quits  
to Run for Office**

John Gandy, city plumber in  
charge of repairing public offices,  
having announced himself as a can-  
didate for city commissioner, defeating  
Incumbent Joseph Lloyd. Immediately  
announced the appointment of  
Walter Ford, business agent, of the  
Plumber's Union.

**Raid Yields Twenty  
Gallons of Liquor**

Joseph Lopez proprietor of an es-  
tablishment at 1111 Seventh street,  
in the city hall awaiting transfer  
to San Francisco for legal authori-  
ties as a result of a raid conducted  
upon him at his home by the  
special William Kyle and his side-  
kick, William Johnson, and his wife  
Twenty gallons of contraband liquor  
were seized, consisting of Jackass  
brands and other bootleg liquors.

**Heavy Fall of Snow  
Visits Mother Lode**

SONORA, Feb. 16.—A new and  
very heavy snowfall has almost al-  
most closed off the Mother Lode since Saturday night. A tem-  
perature freeze has set in parking the  
new snow. Telephone wires are  
down hence reports from higher  
regions are scarce.

**Steel Works Surgeon  
To Talk of Breaks**

RICHMOND, Feb. 16.—Dr. Gilbert  
M. Barrett of San Francisco chief  
surgeon for the Bethlehem Steel  
Works will read a paper on latest  
methods of treatment of fractures of  
long bones and various burns and in-  
juries encountered at the steel works  
at a meeting of the Contra Costa  
Medical Society at 6 p.m. on Feb. 21.

He will be at the office of Dr. C. Abbott here on

February 21. It is unannounced.

**Heavy Fall of Snow  
Visits Mother Lode**

SONORA, Feb. 16.—A new and  
very heavy snowfall has almost al-  
most closed off the Mother Lode since Saturday night. A tem-  
perature freeze has set in parking the  
new snow. Telephone wires are  
down hence reports from higher  
regions are scarce.

**Photo Salesmen Are  
Suspected of Theft**

Detectives are seeking two men  
who are suspected of stealing a val-  
uable diamond ring from a jewel  
box in the apartment of Mrs. F. B.  
Buck, 447 Twenty-fourth street.  
They were called to the house  
after buying a photograph of Mrs. Buck.  
Mrs. Buck said the men represented  
themselves as agents for a well-  
known photograph gallery with  
branches in many California cities.  
She left them alone in a room for a  
few minutes while she went to get a photograph. Later she dis-  
covered that her jewel box had been  
robbed.

**Signalman's Skull  
Fractured By Train**

HARRY C. TOWNSEND aged about  
70, signalman for the Southern  
Pacific Company, was struck by a  
local train at the Baldwin mole to-  
day and suffered a basal fracture of  
the skull. He was taken on a train  
to Seventh and Broadway and from  
there to the Emergency Hospital  
where it is stated he may not recover.  
Treatment lies at \$100 a foot-  
ball card.

1300 Washington St.  
Boston, Mass.

## C. of C. Revises Boards; New Industry Is Located

Reorganization of two of the  
boards of the corporation on all  
of which he was a member of the  
new industry were announced to  
day by E. G. Lovell, E. W. Green  
and H. W. Newell.

The new industry is located in  
the new portion of East 12th street  
between Market and Kinnel streets  
and is to be known as the  
"New Industrial Center."

Two buildings have been taken  
over to light manufacturing  
and distribution of its products in the  
territory from the local interests.

The corporation is to be re-  
organized in the interest of new industries  
and to do the best for the  
interests of the public.

## THE FOURTH SMALLEST

Compared to the population of the United States has the fourth smallest army in the world. Only Brazil, Paraguay and Colombia have relatively smaller armies. Even Germany after the disarmament in accordance with the Versailles treaty has relatively a larger army than the United States.

The Secretary of War the other day furnished Congress with some interesting figures regarding the military establishment of other nations. According to the latest data available France's regular force is 792,000 consisting of conscripted French and Colonial troops and in addition it has 1,560,000 men enrolled in the reserves. Italy's regular force numbers 350,000 but its reserve force consists of 4,627,000 men including 2,000,000 mobile militia of the first line, 1,000,000 territorial militia as second line reserves and 111,000 carabiniers and royal guardsmen.

Japan's military forces according to the Secretary's figures comprise 1,918,000 men including a regular army of 273,000 a first reserve of 732,000, a second reserve of 607,000 a national army consisting of men between 37 and 40 years of age 246,000, and 200,000 men enrolled for replacement.

Great Britain's army of white troops totals 295,000, with 130,000 additional native and Colonial troops, plus 233,000 men in the territorial armies.

Italy's army expenditures for the current fiscal year were placed at 1,812,000,000 lire, France's at 4,237,000,000 francs Great Britain's at 190,155,000 pounds sterling, and Japan's at 210,000,000 yen.

Congress has just passed, over the President's veto, a resolution requiring that all enlistments in the army be stopped until the enlisted strength is reduced to 175,000 men and the army appropriation act for the fiscal year beginning July 1 of this year provides for an army of only 150,000 men. In view of these facts, it does not seem possible that any foreign nation can accuse this country of maintaining a large and menacing military machine, nor that there is any call for radical sympathizers and pacifists going about the country, after the fashion of Oswald Garrison Villard, haranguing against the "militarism" of America.

## THEY PRODUCED SHIPS

Mr Edward S. Hurley, former president of the United States Shipping Board, in testifying before a Congressional investigating committee last week, called attention to the achievements of the board in building ships during the war period when ships was the greatest need of the United States and all the other adversaries of the Central alliance.

He admitted that some mistakes were made but said he had tried not to make the same mistake twice. Earlier in the investigation of the ship building record Mr Charles Pierz, vice-president of the board and general director of the shipbuilding work during the war testified to much the same effect.

It seems to be due to these two gentlemen to recognize the truthfulness of their claims. The business of building ships under their administration was ably conducted and production early reached a quantity which American citizens only hoped for and which the enemy did not believe possible. The production and distribution of material, the mobilization of workmen and the outfitting of ships was a gigantic task. While the slogan was speed and more ships, with cost a secondary object, the job was efficiently performed.

It was after these men had quit the government service, when the work of counting the cost and paying the bills, of disposing of the new ships released from war service or still on the building ways, of formulating a policy for administering the mercantile marine on peace basis, that the most scandalous mistakes and derelictions of duty were committed. They are still being committed, however, Hurley, Pierz and Schwab and their

associates rendered a large national service in producing ships with which to win the war. What was their assignment and well did they answer for it?

## NOTES AND COMMENT

EDUCATION AGAINST FIRE

Assemblyman Rosenthal of San Francisco has introduced in the legislature at Sacramento a bill of highly commendable purposes. These are to educate an understanding of the causes and origin of fires to emphasize the danger of carelessness in fires in homes and in public buildings and the necessity of care in the use of fire and to promote an interest in preventing fires and the protection of lives and property.

In order to serve these purposes the bill provides that the board of education of each county and of each city whose city is to prescribe the course of study for the elementary schools shall prescribe a course of study in fire prevention dealing with the protection of lives and property against loss or damage as a result of preventable fires in accordance with the provisions of this law for all pupils enrolled in the day elementary schools and the high school board of each school district shall prescribe a suitable course of fire prevention for all the pupils enrolled in the day high schools. The State Board of Education in standardizing the course of instruction covered in the secondary schools shall prescribe a course in fire prevention and shall make the completion of the course a requirement for graduation.

These phrases borrowed from the text of the bill describe with fair exactness a plan to teach the future men and women of the State to educate preventible fire losses. It is the proper way to go about the necessary solution of an expensive problem.

Naturally the bill has the approval of many associations interested in the conservation of the nation's property and resources. Among the agencies which have endorsed the law are the United States Forest Service officials, the United States Bureau of Education, the National Association of Credit Men and the National Board of Fire Underwriters. Preventible fires are costing the United States over \$300,000,000 annually and the judgment of those who have studied and comprehend the situation is very earnestly in favor of some action that will reduce this heavy loss.

A few days ago the news dispatches carried the information that Mr. Herbert Hoover was heading a movement of all the engineers of the country to prevent waste and save the billions of dollars that are lost through waste. Reducing the fire loss is one of the most important questions before the country for the answer of which requires in the main only common sense precautions on the part of the people.

Instruction in the schools will be a long fat wad step in saving the country from its serious fire loss. The Rosenthal bill or something like it ought to become law in California and every other State in the Union.

## SOUND CONSENT

Mr. Thomas A. Edison observed his seventieth birthday last week by voicing some observations on the state of the country. Among other things he said:

"Reorganize and put on a business basis the stupid and bureaucratic form of government in the army is stopped until the enlisted strength is reduced to 175,000 men and the army appropriation act for the fiscal year beginning July 1 of this year provides for an army of only 150,000 men. In view of these facts, it does not seem possible that any foreign nation can accuse this country of maintaining a large and menacing military machine, nor that there is any call for radical sympathizers and pacifists going about the country, after the fashion of Oswald Garrison Villard, haranguing against the "militarism" of America."

Mr. Edison's descriptive adjectives are well chosen and his advice is timely. Fortunately the prospect is brighter than it has ever been during the last eight years that some effort will be made to do the very things he recommends.

No politician in the country could display more cleverness or more effective self advancement tactics than to work with all his might for the realization of Mr. Edison's wish.

A member of the Missouri legislature has protested against the presence of half-clad women running about the hills of the capital building. And Missouri has a horrid reputation of not taking anything for granted—of having to be shown

## ON GOVERNMENT OPERATION

Recent Washington advises to the effect that the Chamber of Commerce of the United States has given expression to its strong disapproval of certain present tendencies toward undue government control and operation of industry. The particular objects of attack are the so-called Caland and Lakeview hills, which are thought to give the government such control either through their commissioners, licensees or other means as will in effect amount to government operation of industries. Reasonable legislation affecting industry where public interest requires it is not opposed, but such provisions as are included in the bill, unless consideration is deemed limited to industrial welfare and public interest, the measures are doubly to be condemned because of the danger of such a precedent. Arguments for the adoption of these acts could with equal force be used in behalf of similar action in relation to many other lines. Their adoption therefore would logically at least commit the government to a program of control of industry in general.

The position thus taken is in the main unassailable. The danger of such a precedent is real. That the means which look upon such government control as a panacea for many industrial and commercial ills can not be denied. But with how far the movement in this direction has gone.

It seems to be due to these two gentlemen to recognize the truthfulness of their claims. The business of building ships under their administration was ably conducted and production early reached a quantity which American citizens only hoped for and which the enemy did not believe possible. The position thus taken is in the main unassailable. The danger of such a precedent is real. That the means which look upon such government control as a panacea for many industrial and commercial ills can not be denied. But with how far the movement in this direction has gone.

It seems to be due to these two gentlemen to recognize the truthfulness of their claims. The business of building ships under their administration was ably conducted and production early reached a quantity which American citizens only hoped for and which the enemy did not believe possible. The production and distribution of material, the mobilization of workmen and the outfitting of ships was a gigantic task. While the slogan was speed and more ships, with cost a secondary object, the job was efficiently performed.

It was after these men had quit the government

service, when the work of counting the cost and

paying the bills, of disposing of the new ships

released from war service or still on the building

ways, of formulating a policy for administering

the mercantile marine on peace basis, that the

most scandalous mistakes and derelictions of duty

were committed. They are still being committed,

however, Hurley, Pierz and Schwab and their

## NOTES AND COMMENT

EDUCATION AGAINST FIRE

Assemblyman Rosenthal of San Francisco has introduced in the legislature at Sacramento a bill of highly commendable purposes. These are to educate an understanding of the causes and origin of fires to emphasize the danger of carelessness in fires in homes and in public buildings and the necessity of care in the use of fire and to promote an interest in preventing fires and the protection of lives and property.

In order to serve these purposes the bill provides that the board of education of each county and of each city whose city is to prescribe the course of study for the elementary schools shall prescribe a course of study in fire prevention dealing with the protection of lives and property against loss or damage as a result of preventable fires in accordance with the provisions of this law for all pupils enrolled in the day elementary schools and the high school board of each school district shall prescribe a suitable course of fire prevention for all the pupils enrolled in the day high schools. The State Board of Education in standardizing the course of instruction covered in the secondary schools shall prescribe a course in fire prevention and shall make the completion of the course a requirement for graduation.

These phrases borrowed from the text of the bill describe with fair exactness a plan to teach the future men and women of the State to educate preventible fire losses. It is the proper way to go about the necessary solution of an expensive problem.

Naturally the bill has the approval of many associations interested in the conservation of the nation's property and resources. Among the agencies which have endorsed the law are the United States Forest Service officials, the United States Bureau of Education, the National Association of Credit Men and the National Board of Fire Underwriters. Preventible fires are costing the United States over \$300,000,000 annually and the judgment of those who have studied and comprehend the situation is very earnestly in favor of some action that will reduce this heavy loss.

A few days ago the news dispatches carried the information that Mr. Herbert Hoover was heading a movement of all the engineers of the country to prevent waste and save the billions of dollars that are lost through waste. Reducing the fire loss is one of the most important questions before the country for the answer of which requires in the main only common sense precautions on the part of the people.

Instruction in the schools will be a long fat wad step in saving the country from its serious fire loss. The Rosenthal bill or something like it ought to become law in California and every other State in the Union.

## SOUND CONSENT

Mr. Thomas A. Edison observed his seventieth birthday last week by voicing some observations on the state of the country. Among other things he said:

"Reorganize and put on a business basis the stupid and bureaucratic form of government in the army is stopped until the enlisted strength is reduced to 175,000 men and the army appropriation act for the fiscal year beginning July 1 of this year provides for an army of only 150,000 men. In view of these facts, it does not seem possible that any foreign nation can accuse this country of maintaining a large and menacing military machine, nor that there is any call for radical sympathizers and pacifists going about the country, after the fashion of Oswald Garrison Villard, haranguing against the "militarism" of America."

Mr. Edison's descriptive adjectives are well chosen and his advice is timely. Fortunately the prospect is brighter than it has ever been during the last eight years that some effort will be made to do the very things he recommends.

NO. 47.

## MURDER GROWS FROM FIGHT OF NARCOTIC USERS

Victim Dies From Beating;  
Accused Man Says He  
Was Played False.

As the result of the death of Edwarde Rader last Saturday from injuries suffered when he was knocked down in a fight with John Nolan which developed from a row over drugs at Sixth and Clay streets the night before a charge of first degree murder was today filed against the two. Under Sheriff and Detectives Sanderson and Tracy admitted they had been beaten by Rader and Nolan, the police who admits he is in jail.

Rader was found lying on the pavement in an unconscious condition Friday night by Patrolman Paredes and taken to the Emergency hospital where he was found to be suffering from a fractured skull and concussion of the brain. Before he died fourteen hours later, Rader said attaches that he had been knocked down and beaten over the head by a hold-up man who robbed him.

**THREE MEN FIGHTING**  
Later the police learned that three men were seen fighting at Sixth and Clay streets shortly before Rader was found. Subsequent investigation by Detectives Sanderson and Tracy resulted in Nolan's arrest. An attorney for the others Nolan admitted that he had a fight with Rader and said the latter stumbled and fell during the conflict. Nolan and the third man, as yet unidentified, then fled the scene.

According to Nolan's story, the fight started the result of a row over a given to Rader by Nolan for the purchase of dope several days before the fight. Rader, Nolan said, contends failed to reappear and divide the drugs and the first time he saw him subsequently was at Sixth and Clay streets Friday night. He accused Rader of placing him false, Nolan said, and a frantic combat was the result.

**MAY REDUCE CHARGE**  
The detectives expressed the belief today that the charge of murder will eventually be reduced to manslaughter, but stated that altering the charge is not in their jurisdiction but within the province of the committing magistrate. Nolan will be arraigned before Police Judge Edward J. Tyrrell tomorrow morning.

**Girl Forbidden To  
Run Auto For Month**  
Berkeley, Feb. 16.—Miss Elizabeth Barnard, 20-year-old student at the University of California, drives her automobile at any time during the next thirty days she'll go to jail, so Judge Robert Edgar informed her this morning.

Miss Barnard, who resides at 245 Webster street, was charged with Patrolman Henry Villa with causing him to change almost a mile along the streets of Berkeley before he could intercept her.

Miss Barnard appeared in court armed with her checkbook. She admitted having been arrested in Oakland for speeding and fined for the offense and said she expected similar treatment in Berkeley.

"There'll be no time for you," declared the judge. "I'm going to take you away for 30 days and if I find you driving it during that time you'll go to jail."

"But Judge, my car's parked out in front now," objected the girl.

"You'll have to find some one to drive it home for you, because if you do I'll order you to jail," insisted the Judge.

Patrolman Villa chivalrously drove the fair speeder to her home.

**Governor to Speak  
For King Tax Bill**

JOS ANGELES, Feb. 16.—Governor Stephen M. Ladd, Los Angeles early today planned to carry his fight for the King tax bill into other parts of the state. He planned to speak this morning at Ventura, at noon at Santa Barbara and tonight at San Luis Obispo. He said he was well pleased with the result of his tour of southern California.

## Jobs for Girls

MISS GRACELLA ROTEL, coed leader at University, who is directing conference to aid college girls to choose their vocations in life

## JOB OR HUSBAND COUNCIL IS HELD BY GIRL STUDENTS

Positions First, Mates Afterward Stressed By Officials At University

BERKELEY, Feb. 16.—Jobs or husbands?

Coeds at the University of California today opened a conference to decide which it should be when they finish their college courses.

University officials are laying stress on jobs first and husbands afterwards. The conference is planned primarily for upper-class students about to finish their studies but was largely attended by girls of all classes.

The time has come when women are realizing that they are no longer restricted to the traditional careers of their grandmothers, says Miss Lucy Stebbins, dean of women at the university who supervised plans for the conference.

"That the college girl of today is an independent kind of a miss who feels that she must stand securely on her own feet before marching down an aisle to strains of Lohengrin is the observation of Miss Stebbins who supervised plans for the conference.

The two McKinney brothers and sister, Mrs. Elmer Hall, were appointed joint administrators of the estate which amounted to nearly \$1,000,000. Some time ago, before the death of the capitalist, he deeded to his wife property worth between \$75,000 and \$80,000. The balance amounts to about \$100,000.

**TWO ARE SUMMONED**

They have filed an application for a writ of habeas corpus which has been granted by Superior Judge T. C. Robinson requiring the State to appear on March 1 to show cause why George C. McKinney, Jr., is held in custody.

The outcome of the trial will depend on the color of man's right to the disadvantage of being enveloped in a haze of Jacks brandy fog. Somewhere in the conflict a knife figured according to rats who say they saw it flash in his opponents hands but could not remember his name.

The podemane swang with his cutlass, shouting, "The public demands justice!" and when he struck the colorado man's right to the disadvantage of being enveloped in a haze of Jacks brandy fog. Somewhere in the conflict a knife figured according to rats who say they saw it flash in his opponents hands but could not remember his name.

The outcome of the trial will depend on the color of man's right to the disadvantage of being enveloped in a haze of Jacks brandy fog. Somewhere in the conflict a knife figured according to rats who say they saw it flash in his opponents hands but could not remember his name.

**ONE IS SUMMONED**

George C. McKinney, the 11-year-old administrator in the sum of \$1,000,000, represented by all three brothers, Donahue and Hall, were substituted in appearance on George C. McKinney, Jr., in its place William H. McKinney, Jr. and Mrs. Hall were unable to obtain bonds and they have no intention to act as administrators leaving George C. McKinney, the sole administrator. Mrs. Hall is said to have gone to

An application is on file with Judge Robinson in Decatur for a reduction in the amount of the bond.

The law requires however that the bond shall be twice the value of the personal property. The \$100,000 in question is said to be all in notes and bonds. This property will be divided among the widow and children, the former receiving one half and the children an equal share in the remainder.

**ONE IS CONSIDERED**

Charles E. McElroy, 26, developer of the oil of the oiler's story and that told by the defendant result in Teller. Judge Smith deferring decision on the case until February 1 to allow additional time to ponder on the various discrepancies which developed at the hearing.

There was much indecision between Prosecutor Fred Lionard and Attorney J. T. Jerome representing Jones as to whether the latter was walking forward or backward at the time of the collision.

It is generally understood that he did not walk when he never did, but walked from the courtroom back to his office, and from the courtroom back to his office.

**Hair Dyeing Soldier  
Will Be Sentenced**

SAN FRANCISCO, Feb. 16.—Byron C. Jensen the young Salt Lake soldier and son of a prominent family there plead guilty guilty before U. S. Judge Dooley today to a charge of impersonating a secret service officer. He will be sentenced next Monday.

Judge Dooley, a Justice of the peace, was born in the city of the 100,000.

The dispute involved a host of minor articles including pictures of an un-

parent value, a high school diploma, stockings, aprons and other things many of which were tested as valid at 10 and 15 cents. There was also a question as to whether the husband

of the woman who died first were the property of the husband.

Judge Dooley urged the two to look

the long drawn-out battle be-

tween the mothers of Claudio A. Roberts and his wife, Mrs. Mirabelle Roberts, over the effects left by their

children who died within four days of each other during the influenza epidemic of more than a year ago.

There was also an agreement

between the two women.

## GENERAL VOTE ON UTILITY DISTRICT IS DECIDED UPON

Original Agreement To Allow  
Two Cities to Take  
Action Abrogated.

The last two cities will either vote simultaneously on the formation of a public utilities district or they will not vote at all according to an amendment voted upon by the mayors' city attorneys and city councilmen informally yesterday afternoon at a meeting of officials to consider amendments to the public utilities bill.

The public utilities bill was originally found unconstitutional. A new bill was recently introduced by Assemblyman Spence of Alameda and Senator Davis' conference of officials in Mayor Davis' office formulated amendments to the bill so that the completed and perfected plan may be laid before the legislature.

The entire Alameda County delegation will be asked to meet with the mayors and councilmen in Mayor Davis' office today afternoon at 4 when a complete draft will be presented them and explained to them.

### AGREEMENT ABROGATED

Yesterday a meeting began when City Attorney Locke of Alameda read the amendments as proposed by a sub-committee. Locke observing at the end that such a large proposition involving perhaps the ultimate purchase of great water or lighting plants has a broader scope than can be handled by any one municipal body.

The size of the project was explained by several persons and the last understanding of a few weeks ago was abrogated. It had been understood at that time that the law so framed that any two cities could form a utilities district even though it couldn't be operated because the cities could then form a nucleus and other cities could join on later.

Engineer Marion Campbell of Oakland attacked the idea.

"We have no way with sectional lines if we want a public utility district," said Leo Clegg, San Leandro city attorney of Oakland. "The minute those lines are recognized in a district there is going to be trouble."

Some protested, asserting that the cities should have the right to vote as municipalities on whether they would enter the district or not but the final vote made the law so that all the districts voted alone and the decision is made by the majority of the citizens within its boundaries."

"We've got to do something," said Campbell. "We must accept the statement of the water company that in ten years we will be forced to get an outside supply. We must be ready for action."

Those present yesterday included Mayor Davis, Engineer Campbell and Assistant City Attorney Gray of Oakland; Mayor McNeil and Assistant Mayor of Berkeley; Mayor of Richmond; Engineer Mr. Gishan of Berkeley; Mayor Cornish of Emeryville; City Attorney Stephens of Berkeley; Major Ots City Manager Hewes; City Engineer Hickock; City Attorney Locke of Alameda and assemblyman Spence.

**Contrasted Qualities  
of Workmen Listed**

There are twelve pairs of contrasted positive and negative qualities by which any man may be judged as to his ability as a worker, according to H. S. McCormick of New York, a business writer who addressed the members of the Oakland Advertising club yesterday at their luncheon in Hotel Oakland.

The contrasting attributes he listed as follows:

1. Mental effort—Manual effort 2. Directive—Dependent 3. Large Scope—Small Scope 4. Deliberative—Impulsive 5. Dynamic—Static 6. Mental Accuracy—Mental Inaccuracy 7. Cooperative—Selfish 8. Original—Imitative 9. Adaptable—Self-centered 10. Physical Strength—Physical Weakness, 11. Rapid Mental Co-ordination—Slow Mental Co-ordination 12. Concentration—Diffusion

He also declared that blonde men are faster thinkers than brunettes.

### Prisoner in City Jail Is Stricken

At last MacArthur is pronounced in the city jail died in an ambulance today while being rushed to the emergency hospital. He is taken ill shortly after midnight. The police have no record of his address.

MacArthur was facing a charge of felony embezzlement preferred by Mr. Kirking, Goldsmith, 147 Geary street, San Francisco, who alleged that on September 17, 1920 MacArthur disposed of a gold bar pin worth \$10,000 and valued at \$300, which she had entrusted to him for safe keeping. He was arrested some time ago in San Diego and returned to Oakland.

## Gift of \$11,000 Is Announced In Fund Campaign of Y.W.C.A.

### Women's Team Outdistances Men in Drive to Raise \$60,000 Budget

The gift of \$11,000 in addition to the report of the twenty-five team captains who had been soliciting for the men's and women's budget of the Young Women's Christian Association was announced at the workers luncheon in the Webster street building today by Mrs. John J. Valentine president. A half day effort on the part of the 250 men and women who have been recruited to the drive corps yesterday added \$4300 from the original sum. Several additional thousand dollars were announced to be given this noon. The \$11,000 was contributed by eight donors through the initial gifts committee. The following gifts were acknowledged:

Mrs. Norman DeVaux (upper) and Mrs. Clinton Walkert, active workers in the \$60,000 "Y" budget campaign.

## PREPAREDNESS APPEAL IS MADE

BERKELEY Feb 16.—An appeal for preparedness through the strengthening of the National Guard was mingled with resolutions that Japanese propaganda be fought in the east by the board of directors of the Berkeley Chamber of Commerce last night.

Endorsement was given by the chamber to the plans of congress and state authorities to materialize the organization of the National Guard, according to the appeal of Governor Stephens. The following resolutions were adopted:

### MIN OF DISTINCTION

The women's teams outdistanced the men's teams by \$601.

The returns were: Women's teams, \$42,105.50; men's teams, \$17,750; business women's teams, \$52.

Team captains are:

A. Mount, J. D. Nash, Major J. W. McCaughey, Jr., Morehouse, Captain John L. Allard, Leslie Oliver, Miss Cleo Ashford, Miss Ruth Biddle, Miss Gladys Glazek, Dr. Sarah King, Miss Sue Rinckel, Mrs. A. S. Kinnar, Mrs. L. J. Crockett, Mrs. J. L. Carroll, Miss Charlotte Williamson, Mrs. F. M. Peatree, Mrs. N. J. Remond, Mrs. R. L. Stroh, Miss Melba Stafford, Mrs. E. A. Alford, Mrs. J. S. Sturges, Mrs. W. L. Clark, Mrs. J. N. Liver, Mrs. Alice Heath, Mrs. Alice Heath.

### PERSONNEL OF TEAMS
